

Good evening,

Y'all ok out there? There is a cute pic attached! Just a little humour for everyone exercising isolation! Hope you all enjoy!

In Winnipeg, there was one new Covid 19 case to report for Wednesday April 29, 2020, total in Manitoba remains at two hundred seventy three (273).

We currently have two residents in isolation. I have received a few questions about isolation versus precautions, etc. I'll try explain as best I can! When we have a new admission, the moment the resident enters the facility they are swabbed for Covid 19 and placed in isolation for up to fourteen (14) days or until the swab is returned negative. This means they must stay in their room and not wander. If they do wander, they must wear a mask. Because there are residents in isolation our staff must exercise precautions with full PPE. Other times we may have residents that would be on isolation and precautions because of flu like or gastric symptoms, pneumonia, GI, etc. This would be the same precautions, staff have to wear PPE until the resident is symptom free for a minimum of twenty (24) hours. If you require further clarification please just let me know!

Recreation was busy with our residents today! It was so beautiful today that Mike was bringing residents outside for fresh air and sun in the back pergola area. Quite a few video chats with family. We also had some window visits.

Employee spotlight can be found on Facebook and Instagram as well I have attached.

If you have any questions, comments or concerns please feel free to contact me or Alison at 204-257-9947.

The Premier has announced that they are relaxing some of the restrictions throughout Winnipeg. PCH's are still in lockdown! Remember everyone, social distancing is still required!!!
