

Good evening,

Sorry for the late email.

I am happy to report there are no flu like symptoms for any residents. We continue with our respiratory outbreak with four (4) residents in isolation due to common cold symptoms.

We've had a quiet day at the lodge today for our resident's.

Several staff called in sick last night, today and this evening. All staff are required to contact WRHA OESH to report what symptoms they have and are then advised on whether or not they should have Covid 19 testing. We are not allowing any staff in our facility that have any cold or flu like symptoms. I'm happy to report that staff that have gone for Covid 19 testing have all reported negative results. OESH sends to our office the report on the employee advising the results and the next steps for the employee. We are filling all sick calls and not working short.

This virus is working its way into personal care homes in Winnipeg. This is concerning for all of us. For staff that work at the facilities that have reported positive Covid 19 results must contact OESH to find out next steps. These employees must cease all shifts with GLL until GLL receives notification from OESH of their status.

There were twelve (12) confirmed Covid 19 cases reported today bringing the Manitoba total to one hundred ninety two (192). Stay home so we can keep these numbers low!

We hope that you are all keeping well, practicing social distancing and staying close to home. We thank you for your continued support, positive comments and prayers~ We all want to get back to normal with families visiting our resident's, volunteers supporting our facility and students learning through practicum.

If you have any questions, comments or concerns please feel free to contact me directly, Alison or our Business Office 204-257-9947.
